

# Android App UI with explanations

This document aims to describe the Siivouspäivä Android App UI and give all the needed information for coding (e.g., colorcodes, functionalities, typesizes,...).

I use

bold pink font for titles

regular pink font for descriptions

regular blue font for FUNCTIONALITIES

regular green font for FILENAMES

small green fonts for descriptions of typefaces, fonts,...

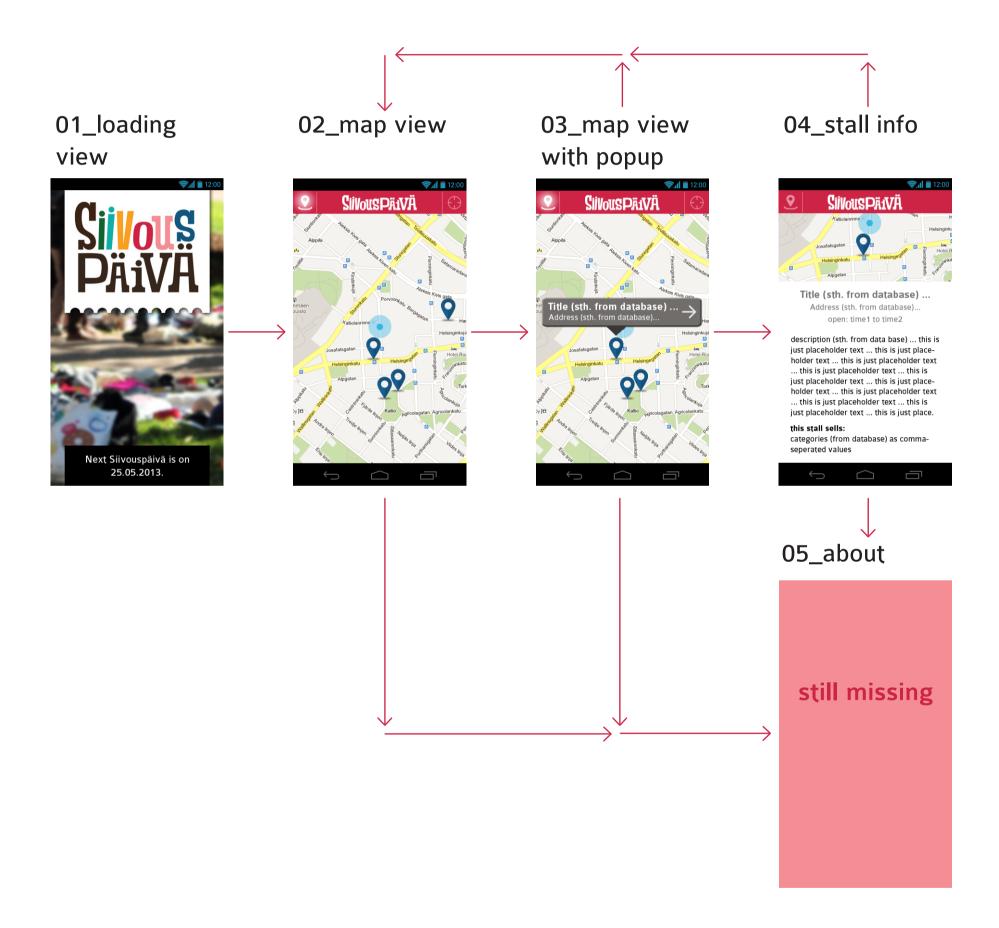

all the mentioned files can be found in our GitHub.

Fonts are in the fonts folder.

Icons are in Uldesign/andoid elements.

The UI sketches are in UIdesign/android UI.

## the views

## **01\_loading view**

when? while the app is loading

## **01\_loading view**

when? while the app is loading

default Android top status bar (always there)

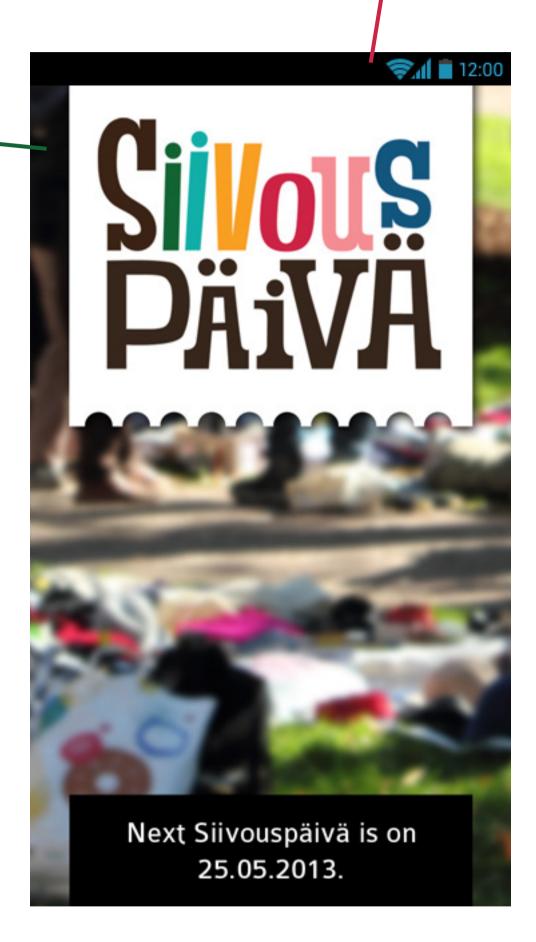

image on whole

screen

filename:

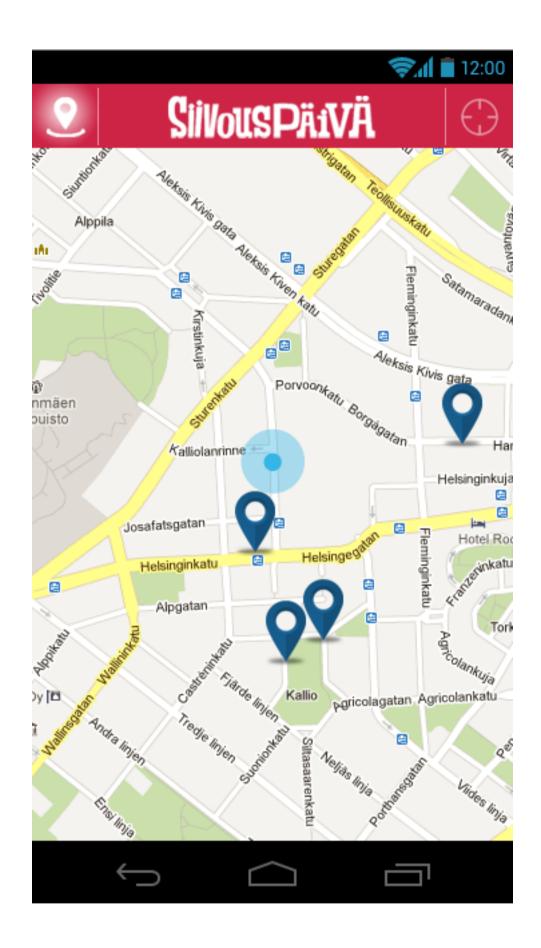

entry\_screen\_right

date.png

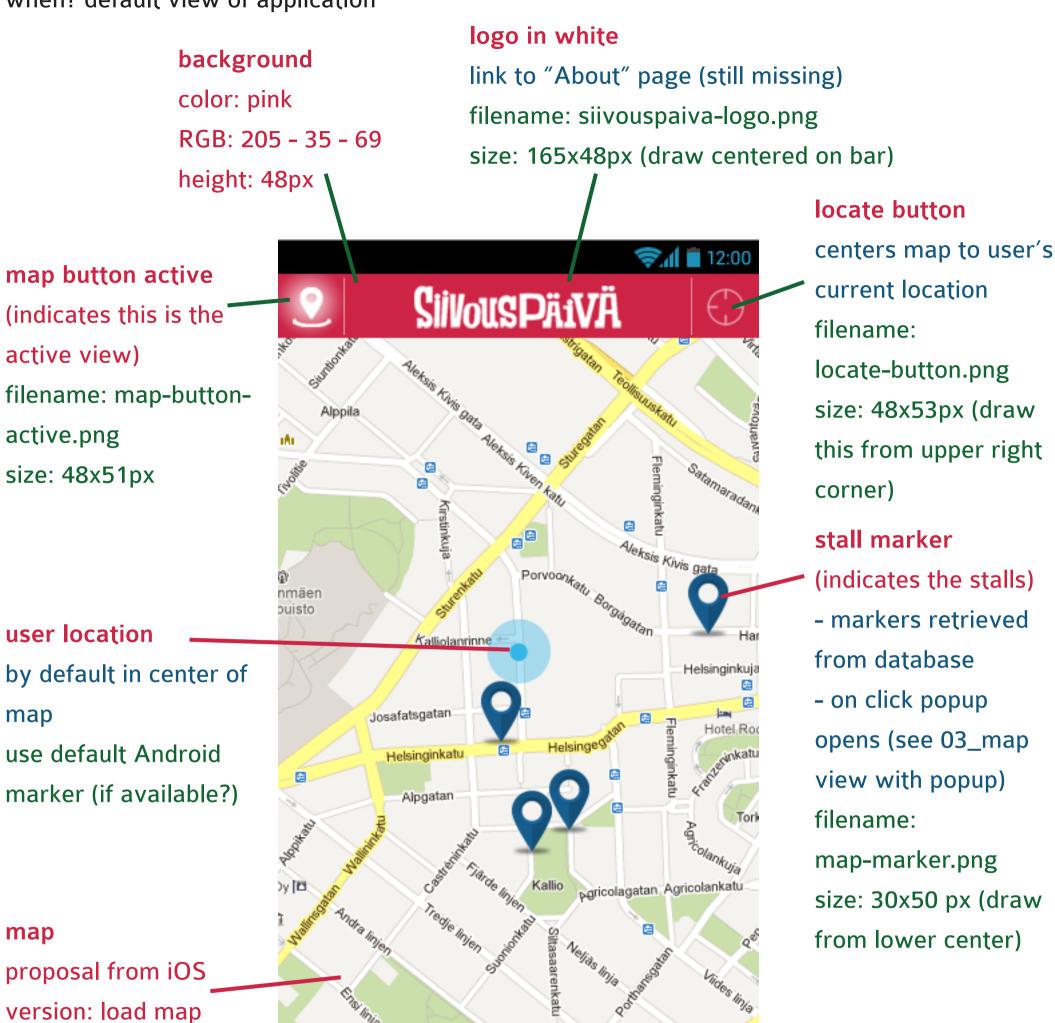

## 02\_map view

when? default view of application

## 02\_map view

when? default view of application

default Android bottom bar

(should only be visible on devices that do not have the buttons

[if possible?])

loaded area

and markers also for

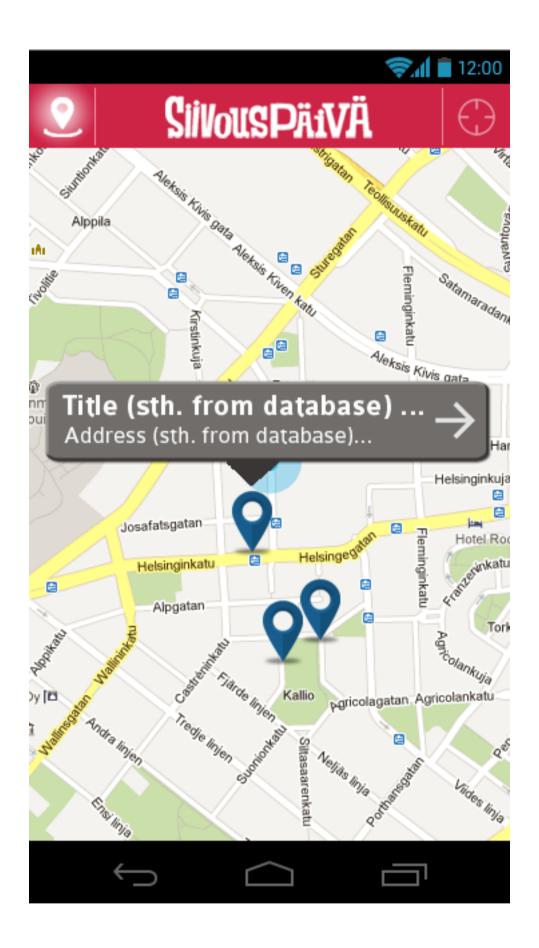

area around current

view:

current view

## 03\_map view with popup

when? default view of application

## 03\_map view with popup

when? default view of application

color: pink
